for Humanity

Fall 2022 Initiatives

Internal Family System
- Continued family system to group students in student-led "families" for social events and competitions

Outreach
- Delivered presentation to high school seniors about UT ECE and college life

Alumni Engagement
- Building alumni network and providing students with connections to alumni for personal and career advice

Mental Health
- Promoting mental health within the College of Engineering through advertisement of school events and delivering mental health information to members

Spring 2023 Planned Events

General Meetings

- More professors, alumni, and industry professionals to speak to members
- Goal is to provide members with exposure to full breadth of ECE opportunities
- Corporate outreach to non-traditional ECE companies

Special Events

- **Region 5**
  - Ethics and Circuit Design Competition – will be selecting team to participate
  - Will coordinate with IEEE RAS to determine interest and feasibility of participating in Robotics competition based on current COVID policies at UT
  - Current projected cost of participation is $0

- **Hackathon**
  - Planning to host hackathon for ECE students in March
  - Projected utilization of **CTS funding - $400**
    - Prizes and supplies for participants (microcontrollers, wires, breadboards, etc.)

IEEE
Advancing Technology
for Humanity

Spring 2023 Initiatives

Scholarships

- Goal is to motivate participation in branch activities and to reward involved members
- **Projected utilization of CTS funding: $300**

SPAX – End of Year Banquet

- Will invite guest speakers to speak on a theme (past themes: Next Big Thing, Smart City)
- **Projected utilization of CTS funding: $200** for food for attendees

Alumni Network

- Will continue reaching out to recruit UT ECE alumni to connect directly with IEEE UT student members

Mental Health/Lunchbuddieees

- Will consistently communicate and stress the need for students to not only focus on ECE but also value their peers and own state of mind

IEEE
Advancing Technology
for Humanity

Spring 2023 Initiatives

Volunteering and Outreach

- Will create opportunities to reach out to K-12 students and inform them about ECE
- Will give back to the local community as a part of community service for students
